

"WE CRAFT RATIONAL REVERIES FOR ELEVATED LIVING"

Founded by architects
Caterina Marazzi and Luca Miserocchi,
the Milanese studio designs interiors
and bespoke furnishings
free from preconceptions.

The design process
investigates the space in its infinite potential,
detecting and analysing the needs and desires,
including those unconscious,
and the character and lifestyle of the client.

With great attention to detail
and care of the values the spaces should express,
the result is a balancing act
between functionality and emotion:
a new reflection of the person,
the company,
the brand.
