ARCHITECTURE as EMOTION
DESIGN as PERCEPTION
SPACE PLANNING as ORGANIZATION

967ARCH

ABOUT 967ARCH

967arch has been designing architecture, interiors, and product design for companies, private clients, and public entities for 25 years.

Founded in Milan by Cesare Chichi and Stefano Maestri, the studio leverages the expertise of architects and designers, covering a range of project scales. Their approach combines the artisanal spirit of a creative workshop with the principles of managerial production processes, where management, cost, and timing guide project development.

Each proposal is based on a narrative framework, providing a logical foundation for stylistic and identity choices. Simplicity, sobriety, and irony are the common threads in all works, characterized by meticulous attention to detail and a drive for innovative solutions across tertiary, industrial, residential, and hospitality sectors.
